If it is felt necessary a noise test may be conducted on specific cars in accordance with Ch 7 App 8 Art 3.

Cars eligible for Class A shall run in that class, rather than in the corresponding class from B to E, but must also meet the **Additional Eligibility Requirements** as for classes B to E, as stated below.

Class F includes all Caterham, Westfield, Lotus, Clan, Ginetta and similar vehicles.

Diesels, with or without forced induction, will run in the class corresponding to their capacity. A petrol engine with forced induction, in class B or C, will move up one capacity class. A rotary engine will be classed at twice its nominal capacity.

Classes with fewer than 4 entries may be amalgamated for the purposes of allocating event awards.

All cars must retain the original body profile above the hub centreline, apart from accessories such as spoilers and wheel arch extensions.

Cars not conforming to this requirement, or one-off specials, or kit cars of an 'off-road' nature, are not eligible for this event.

At the start of the event, all tyres in use must comply with Construction and Use regulations, having at least 1.6mm of tread across the required width of the tyre, as specified in Ch 7 App 2 Art 13. At any time during the event, no tyre in the view of the officials deemed to have damage to the side walls, or no tread pattern remaining, or any layers below the tread compound showing may not be used, and shall be replaced with suitable tyres before further participation in the event.

Additional Eligibility Requirements, Classes A to E:

In classes A to E, cars must retain the original panel and window materials although accessories such as spoilers and wheel arch extensions may be added. They must have full trim and the original number of seats although the type may be changed. The engine must be from the original manufacturer and of the original basic type (eg: BMC 'A' series) and fitted in the original position, but may be a different version, may be modified, and may be a different capacity, provided the car is entered in the class corresponding to its actual capacity. The transmission must also be from the original manufacturer and of the same basic type, but ratios and differential type can be changed, including fitting a LSD.

Cars not meeting all the above requirements are eligible only for Class F.

If there are insufficient entrants in any class the organisers may at their discretion combine classes to create viable competition.

The Organisers decision will be final, regarding the eligibility and most appropriate class for any particular car.

12. Timing will be via an electronic system to the previous tenth of a second.

Competitors are free to start in their own time after the all-clear signal has been received from the timekeeper. This signal will be demonstrated during the first run of the day.

Timing will start as the front wheels cross the timing start line, and stop when the front wheels cross the finish line. Competitors are then required to cease all forwards motion within the box after the finish line.

Should the timing system not work then the organisers will use the manual timing system or stopwatches with the same process as above.

13. It is planned that competitors will have the opportunity for three attempts at each test, with the best two performances counting towards the results. Marking and penalties will be as per Ch 19 App 9 Penalty Table, as follows: The penalty per marker/cone hit is 5 seconds. A maximum time, e.g. for a wrong test, will be the fastest in class, on that run, plus 20 seconds.

The nominated passenger must be the holder of, and produce their full RTA licence at signing-on, and must be experienced in Autotest or AutoSolos. They may also compete in the event. However, it must be noted that they will still be required to marshal on the same basis as all other competitors. Passenger may be carried by other competitors while competing.
15. The event format requires that all competitors shall also act as course marshals, on a rotating basis. All officials, and competitors while acting as marshals, will be Judges of Fact for the purposes stated in Ch 19 App 1 Art 1.2 & 1.3.
16. Provisional results will be published at the end of the event. Any protest must be lodged in accordance with Ch 2 App 9 Art 1 to 4.
17. Practicing, or driving unsafely anywhere on the site, may result in exclusion. The "Off Course" site speed limit is strictly 10mph.
